Achenbach System of Empirically Based Assessment

2021 Catalog

ASEBA® Progress & Outcomes App (P&O App) (p. 3)

- Compares intake, progress, & outcome scores for ages 1½-90+
- Includes self- & collateral-ratings
- Shows whether improvements exceed chance
- Results can be shared with clients & colleagues
- Provides outcome evidence for client records
- Statistical comparisons of outcomes for different services

ASEBA® Manual for Assessing Progress & Outcomes of Problems & Strengths (p. 3)

- Explains how to compare intake, progress, & outcome scores
- Explains requirements for assessing progress & outcomes
- Case illustrations of progress & outcome assessments
- Instructions for comparing effects of different services

Other Valuable Tools for Evidence-Based Practice

- Ages 1½-5: Child Behavior Checklist/1½-5; Language Development Survey; Caregiver-Teacher Report Form (pp. 6-7)
- Ages 6-18: Brief Problem Monitor/6-18; Child Behavior Checklist/6-18 Teacher’s Report Form; Youth Self-Report; Semistructured Clinical Interview; Test Observation Form (pp. 8-9, 18)
- Ages 18-59: Brief Problem Monitor/18-59; Adult Self-Report; Adult Behavior Checklist (pp. 10-11)
- Ages 60-90+: Older Adult Self-Report; Older Adult Behavior Checklist (p. 12)
The ASEBA is a comprehensive evidence-based assessment system developed through decades of research and practical experience. The ASEBA assesses competencies, adaptive functioning, personal strengths, and behavioral, emotional, social, and thought problems from age 1½ to 90+ years. Ideal for intake, progress, and outcome assessments.

ASEBA® Progress & Outcomes App (P&O App)

To tell providers whether changes in a client’s scores exceed chance, the P&O App uses data scored by ASEBA-Web, -PC, or -Network to generate bar graphs of scores obtained at each assessment. Changes that exceed chance are flagged with asterisks, based on statistical tests performed by the P&O App (users do not need statistical skills). If they deem it appropriate, providers can show clients the bar graphs and can use the graphs to document outcomes in client records. Outcome graphs are illustrated below for 8-year-old Jeff, based on CBCL ratings by Jeff’s parents and TRF ratings by Jeff’s teacher.

ASEBA® Progress & Outcomes Manual

The ASEBA® Manual for Assessing Progress & Outcomes of Problems & Strengths succinctly outlines procedures for assessing and comparing clients’ functioning at provider-selected timepoints. The Manual illustrates how providers can compare intake, progress, and outcome scores obtained from self- and collateral-ratings. The Manual also illustrates how outcomes can be statistically compared for clients receiving different services.

ASEBA® Manual for Assessing Progress & Outcomes of Problems & Strengths

An Integrated System of Multi-Informant Assessment

Thomas M. Achenbach, Ph.D.
New to ASEBA?

**About the ASEBA**

- The ASEBA clearly documents clients’ functioning via quantitative scores and individualized descriptions in respondents’ own words
- Practical applications and research studies are reported in over 10,000 publications from over 100 societies and cultural groups, as listed in the online *Bibliography of Published Studies Using the ASEBA* (p. 19)
- Translations in over 110 languages
- Gender-, age-, informant-, and multicultural norms
- Research on clients’ needs, progress, and outcomes; diagnoses; epidemiology; medical conditions; treatment; genetic and environmental effects; cultural variations; abuse; ADHD; HIV; OCD; PTSD; SCT; and much more
- Used in mental health services; schools; medical settings; child and family services; public health agencies; child guidance; training; research; and many other contexts

---

**Preschool Computer-Scoring Starter Kit**

Item # 621 includes:
- ASEBA-PC Module with Multicultural Options for Ages 1½-5;
- *Manual for Preschool Forms and Profiles*;
- Multicultural Supplement to the *Manual*;
- 50 each of CBCL/1½-5-LDS and C-TRF forms

For Preschool Hand-Scoring Starter Kit, see p. 6

For more information on preschool assessments, see pp. 6-7 or visit www.aseba.org/preschool/

**School-Age Computer-Scoring Starter Kit**

Item # 031 includes:
- ASEBA-PC Module with Multicultural Options for Ages 6-18;
- *Manual for School-Age Forms and Profiles*;
- Multicultural Supplement to the *Manual*;
- 50 each of CBCL/6-18, TRF/6-18, and YSR/11-18 forms

For School-Age Hand-Scoring products, see p. 9

For more information on school-age assessments, see p. 8-9 or visit www.aseba.org/school-age/

**Brief Problem Monitors for Ages 6-18 and 18-59**

**Computer-Scoring Starter Kits**

BPM/6-18 Item # 133 Starter Kit includes:
- BPM/6-18 Module; *Manual*;
- 50 each of BPM-P, BPM-T, and BPM-Y forms

For more information, see p. 9, or visit www.aseba.org/school-age-bpm/

BPM/18-59 Item # 117 Starter Kit includes:
- BPM/18-59 Module; *Manual*;
- 50 forms designed for self- and collateral-ratings

For more information, see p. 11, or visit www.aseba.org/adult-bpm18-59/

---

*If you are new to our assessment instruments, it’s easy to begin with a starter kit. The kits contain all the products you need to start assessments, packaged together at money-saving discounts. Select the starter kit that’s right for you. See page 15 for comparisons between hand-scoring and scoring via software.*

For the ASEBA-Web Application that enables online form completion by informants, see p.16
Adult Computer-Scoring Starter Kit
Item # 101 includes:
ASEBA-PC Module with Multicultural Options for Ages 18-59;
Manual for Adult Forms and Profiles; Multicultural Supplement to the Manual; 50 each of ABCL/18-59 and ASR/18-59 forms
For Adult Hand-Scoring Starter Kit, see p. 10
For more information on adult assessments, see p. 10-11 or visit www.aseba.org/adults/

Older Adult Computer-Scoring Starter Kit
Item # 029 includes:
ASEBA-PC Module for Ages 60-90+; Manual for Older Adult Forms and Profiles; Multicultural Supplement to the Manual; 50 each of OABCL/60-90+ and OASR/60-90+ forms
For Older Adult Hand-Scoring Starter Kit, see p. 12
For more information on older adult assessments, see p. 12 or visit www.aseba.org/older-adults/

Semistructured Clinical Interview for Children and Adolescents (SCICA)
SCICA Hand-Scoring products, order separately:
SCICA Manual on CD or via e-delivery; Protocol forms, Observation and Self-Report rating and Profile forms
For more information on the SCICA, see p. 18 or visit www.aseba.org/school-age-scica/

Test Observation Form (TOF)
Hand-Scoring Starter Kit
Item # 419 includes:
50 TOF Forms, 50 of each Profile, and TOF Manual
For more information on the Test Observation Form, see p. 18 or visit www.aseba.org/observational-assessments/
Preschool
Ages 1½-5

The preschool forms and profiles span ages 1½-5 years. The empirically-based syndromes scored from the CBCL/1½-5 and C-TRF reflect actual patterns of problems derived from factor analyses that were coordinated between the two instruments. The CBCL/1½-5 also has a Sleep Problems syndrome. Both forms have parallel Internalizing, Externalizing, and Total Problems scales plus the Stress Problems scale added in 2010. This scale comprises items that discriminate between children who have versus have not experienced severe stress. Because chronic stressors (such as abuse and neglect) are especially relevant to preschoolers, the stress problems scale assesses a broader spectrum of problems than implied by PTSD alone.

An especially valuable feature of the CBCL/1½-5 is the Language Development Survey (LDS), which uses parents’ reports to assess children’s expressive vocabularies and word combinations, as well as risk factors for language delays. Based on a U.S. national normative sample, the LDS indicates whether a child’s vocabulary and word combinations are delayed relative to norms for ages 18-35 months.

- CBCL/1½-5-LDS completed by parents or surrogates in 10-15 minutes
- C-TRF completed by daycare providers and preschool teachers in 10 minutes
- Empirically-based syndromes are based on factor analyses coordinated between the CBCL/1½-5 and C-TRF
- DSM-5-oriented scales (including Autism Spectrum Problems) are based on judgements by experts from many societies
- Multi-cultural norms available for 30 societies, see p. 7
- Cross-informant comparisons of CBCL/1½-5 and C-TRF scores from up to 10 forms for intake, progress, and outcomes assessments.
Multicultural Supplement to the Manual for the ASEBA Preschool Forms and Profiles

Multicultural norms for ages 1½-5, plus the Stress Problems scale and research updates based on hundreds of published studies

Based on over 30,000 CBCLs and C-TRFs from 30 societies, the ASEBA-PC Module with Multicultural Options for Ages 1½-5 scores problem scales with norms for societies that have relatively low problem scores (Group 1 societies), intermediate scores (Group 2), or high scores (Group 3). You can select societies by name or by Group 1, 2, or 3 norms for profiles of syndrome, DSM-oriented, Stress Problems, Internalizing, Externalizing, and Total Problems scales. You can also select norms for displaying scale scores in cross-informant bar graphs for up to 10 CBCLs and C-TRFs per child. Scores from each form can even be displayed in relation to more than one set of norms; e.g., you can display scores from a CBCL completed by an immigrant parent with norms for the parent’s home society and then with the host society norms. You can thus see whether scores are clinically deviant according to either or both sets of norms.

The Multicultural Supplement to the Manual for the ASEBA Preschool Forms and Profiles fully explains the multicultural norms for the CBCL/1½-5 and C-TRF. The Supplement illustrates multicultural scoring, cross-informant comparisons, and practical applications in school, mental health, medical, and forensic contexts. The Supplement also reports multicultural findings for confirmatory factor analyses, internal consistencies, cross-informant correlations, and distributions of scale scores. The Supplement provides updates for the Language Development Survey (LDS) of the CBCL/1½-5. Research guidelines and extensive reviews of research on the instruments are also provided, plus a bibliography of over 300 publications reporting their use with young children.

- Syndrome Scales: Emotionally Reactive; Anxious/Depressed; Somatic Complaints; Withdrawn; Sleep Problems (CBCL only); Attention Problems; Aggressive Behavior

- DSM-Oriented Scales: Depressive Problems; Anxiety Problems; Autism Spectrum Problems; Attention Deficit/Hyperactivity Problems; Oppositional Defiant Problems

School Age
Ages 6-18

For additional school-age information, visit www.aseba.org/school-age/

Child Behavior Checklist for Ages 6-18 (CBCL/6-18)
Teacher’s Report Form (TRF)
Youth Self-Report (YSR)
Brief Problem Monitor (BPM/6-18)

Syndrome Scales Derived from Factor Analyses

All three forms have Internalizing, Externalizing, and Total Problems scales. The TRF additionally has Inattention and Hyperactivity-Impulsivity sub-syndrome scales.

DSM-5-Oriented Scales Based on Experts’ Judgements
Depressive Problems, Anxiety Problems, Somatic Problems, Attention Deficit/Hyperactivity Problems, Oppositional Defiant Problems, and Conduct Problems

Competence and Adaptive Scales
CBCL/6-18 and YSR Activities, Social, School, and Total Competence scales. TRF Academic Performance and Adaptive Functioning scales

The Manual for the ASEBA School-Age Forms & Profiles details the scales, plus clinical and research applications.

The ASEBA-PC Module with Multicultural Options for Ages 6-18 displays scores on profiles in relation to age- and gender-specific norms for user-selected societies (including U.S.), plus:

- Cross-informant comparisons of problem item ratings and scale scores for up to 10 CBCL/6-18, TRF, and YSR forms for intake, progress, and outcome assessments
- Correlations between ratings by each pair of informants
- Bar graph comparisons of normed scale scores for up to 10 informants
- Scales for Obsessive-Compulsive Problems, Stress Problems, Sluggish Cognitive Tempo (not on YSR), and Positive Qualities (YSR only)

Multicultural Norms
Indigenous researchers in over 50 societies obtained CBCL/6-18, TRF, and YSR ratings of many thousands of children and youths. Confirmatory factor analyses (CFAs) of the ratings support the empirically based syndromes. The ratings are embodied in multicultural norms, enabling users of the Module with Multicultural Options for Ages 6-18 to display CBCL/6-18, TRF, and YSR scale scores with norms for user-selected societies.

Multicultural Cross-Informant Bar Graphs
The bars for scale scores obtained from each informant are normed in relation to user-selected societies, as well as the child’s gender, age, and the type of informant.

Multicultural Supplement
The Multicultural Supplement explains the development and use of the multicultural norms, including:

- Sources of multicultural data
- Research basis for multicultural norms
- Confirmatory factor analyses supporting CBCL/6-18, TRF, and YSR syndromes in dozens of societies
- Construction of Obsessive-Compulsive Problems, Stress Problems, Sluggish Cognitive Tempo, and Positive Qualities scales
- Multicultural cross-informant correlations and internal consistencies
- Multicultural case illustrations in mental health, school, medical, and forensic settings
- Multicultural research applications
Available in ASEBA-Web, -PC, and -Network

BPM/6-18 forms are completed by parents, teachers, or youths in 1-2 minutes to rate functioning over user-specified periods of days, weeks, or months. The items are from the CBCL/6-18, TRF, and YSR. They are scored on Internalizing (INT), Attention Problems (ATT), Externalizing (EXT), and Total Problems (TOT) scales.

Linking the BPM/6-18 with Comprehensive Assessments
Brief assessments can evaluate responses to interventions (RTIs) and can monitor functioning in school, inpatient, partial hospitalization, residential, and other settings. To optimize their value, brief assessments should be linked to comprehensive initial assessments for pinpointing specific needs and for designing interventions. The BPM/6-18 counterparts of CBCL/6-18, TRF, and YSR items and scales enable users to link BPM/6-18 assessments closely with the comprehensive initial and outcome assessments afforded by the CBCL/6-18, TRF, and YSR.

Cross-Informant Comparisons
The BPM/6-18 module compares item ratings and scale scores across up to 4 informants on each rating occasion for up to 10 occasions.

Trajectories of Scale Scores
As shown below, the software displays trajectory graphs of scale scores obtained from each informant on up to 10 occasions.

The Importance of Norms
To help users evaluate scale scores, the BPM/6-18 software displays T scores based on gender, age, and informant-specific norms (parent, teacher, self). Multicultural options enable users to select norms for dozens of societies. Normed graphs indicate scores that are high enough to be of concern.

Informant Comments & User-Added Items
Informants can write comments to be entered and stored in the BPM/6-18 software. Users can add up to 3 problems and/or strengths to be rated and then displayed in output.

For free electronic delivery of an item, please use the item number denoted in (), in red, and ending in "E"

For additional BPM/6-18 information, visit www.aseba.org/school-age-bpm/
Adults
Ages 18-59

ASR, ABCL, BPM/18-59, Multicultural Norms, Multicultural Supplement

For additional adult information, visit www.aseba.org/adults/

The Adult Self-Report (ASR) assesses adaptive functioning, strengths, and problems. The parallel Adult Behavior Checklist (ABCL) obtains assessment data from people who know the adult. Both forms are valuable for intake, progress, and outcome assessments in mental health, family, couples, forensic, college counseling, medical, substance abuse, and other services.

Multicultural norms enable you to display scale scores in relation to norms for many societies, as detailed in the Multicultural Supplement to the Manual for the ASEBA Adult Forms & Profiles.

The ASR and ABCL are especially valuable for assessing parents in family-oriented services where children are assessed with ASEBA instruments. When parents complete the ASR to describe themselves and the ABCL to describe their partner, the data can be entered into the MFAM (p. 13) along with CBCL/6-18, TRF, and YSR data for their child(ren). MFAM comparisons between parent and child scores can reveal parent-child patterns to which interventions can be tailored. Progress and outcomes can be assessed by re-administering ASEBA forms and comparing scores with intake scores.

Multicultural norms for the ASR and ABCL are detailed in the Multicultural Supplement to the Manual for the ASEBA Adult Forms & Profiles. The Supplement also details the DSM-5, Obsessive-Compulsive Problems (OCP), and Sluggish Cognitive Tempo (SCT) scales, plus the MFAM, as well as ASR and ABCL findings from many studies.

- Adults complete the ASR to report their own adaptive functioning, problems, strengths, and substance use
- People who know the adult complete the parallel ABCL
- Adaptive Functioning and Strengths Scales: Education; Friends; Spouse/Partner; Family; Job; Personal Strengths
- Syndrome Scales: Anxious/Depressed; Withdrawn; Somatic Complaints; Thought Problems; Attention Problems; Aggressive Behavior; Rule-breaking Behavior; and Intrusive
- DSM-5-oriented Scales: Depressive Problems; Anxiety Problems; Somatic Problems; Avoidant Personality Problems; Attention Deficit/Hyperactivity Problems (Inattention and Hyperactivity/Impulsivity subscales); and Antisocial Personality Problems
- Substance Use Scales: Tobacco; Alcohol; Drugs

Brief Problem Monitor
For Ages 18-59 (BPM/18-59)

Standardized assessment of client progress is increasingly required by accrediting agencies and 3rd-party payers. To meet such requirements, the BPM/18-59 obtains self-ratings and ratings by collaterals (spouse, partner, family members, friends, therapists, inpatient staff) on 18 problem items that have counterparts on the ASR and ABCL. Completed in 1-2 minutes, the BPM/18-59 assesses functioning over user-specified periods of days, weeks, or months. The 18 items are scored on Internalizing (INT), Attention Problems (ATT), Externalizing (EXT), and Total Problems (TOT) scales.

Linking the BPM/18-59 with Comprehensive Intake and Outcome Assessments
Brief assessments need to be linked to comprehensive intake assessments that identify the problems on which interventions should be targeted and to comprehensive outcome assessments that provide evidence for improvement. Because the BPM’s items and scales have counterparts on the ASR and ABCL, BPM scores can be calibrated with intake and outcome ASR and ABCL scores.

Cross-Informant Comparisons
The BPM/18-59 software compares item ratings and scale scores across up to 4 informants on each rating occasion.

Trajectories of Scale Scores
The software displays trajectory graphs of scale scores obtained on up to 10 occasions.

The Importance of Norms
To help users evaluate scale scores, the BPM/18-59 software displays T scores based on gender, age, and informant-specific norms (self, collateral). Multicultural options enable users to select norms for many societies. Graphs indicate scores that are high enough to be of concern (T ≥ 65).

Informant Comments & User-Added Items
Informants can write comments to be entered and stored in the BPM/18-59 software. Users can add up to 3 problems and/or strengths to be rated and displayed in output.

Older Adult Self-Report 60-90+ (OASR)

Older Adult Behavior Checklist 60-90+ (OABCL)

Module w/Multicultural Options

Multicultural Supplement to the Manual for the ASEBA Older Adult Forms & Profiles

For the ASEBA-Web Application that enables online form completion by informants, see p. 16

The Older Adult Self-Report (OASR) obtains older adults’ self-reports of diverse aspects of adaptive functioning, strengths, and problems. The Older Adult Behavior Checklist (OABCL) is a parallel form for obtaining reports from people who know the person being assessed.

Use of the OASR and OABCL can greatly improve intake, progress, and outcome assessments in contexts such as: psychiatric, psychological, and social work services; medical care, including routine care and evaluation of functioning following events such as strokes, falls, and illnesses; following significant life changes, such as loss of a loved one, moves to retirement communities, assisted living, and nursing homes; and evaluations before and after planned changes and interventions.

Multicultural Norms for the OASR and OABCL are detailed in the Multicultural Supplement to the Manual for the ASEBA Older Adult Forms & Profiles. The Module with Multicultural Options for Ages 60-90+ (MMO/60-90+) displays scale scores in relation to user-selected multicultural norms appropriate for the OASR completed by the person being assessed and OABCLs completed by people who know the assessed person.

● Cross-informant comparisons make it easy to see similarities and differences between self-reports and reports by other people

● Adaptive Functioning & Strengths Scales: Friends; Spouse/Partner; Personal Strengths

● Syndrome Scales: Anxious/Depressed; Worries; Somatic Complaints; Functional Impairment; Memory/Cognition Problems; Thought Problems; and Irritable/Disinhibited

● DSM-oriented Scales: Depressive Problems; Anxiety Problems; Somatic Problems; Dementia* Problems; Psychotic Problems; and Antisocial Personality Problems

* DSM-5 uses the term “neurocognitive disorders” but says that “dementia” is also acceptable. The other DSM-oriented scales are based on international experts’ judgement of DSM-IV criteria that did not change materially in DSM-5.
Providers in the helping professions need extensive experience and skills. They also need practical tools for assessing clients’ strengths and problems at intake, to evaluate progress, and to document outcomes.

ASEBA forms make it easy to assess clients’ strengths and problems, as seen by clients and by people who know them. Scores for strengths and problems are displayed on profiles in relation to norms for the clients’ age and gender, the role of the person who completed the ASEBA form (e.g., self, parent, teacher, spouse, partner), and user-selected multicultural norms.

**Multicultural Family Assessment Module (MFAM) & Guide**

The MFAM is especially helpful for comparing syndrome and DSM-oriented scale scores for 6-18-year-olds and their 18-59-year-old parents.

As shown below for Attention Problems, you can see variations in 11-year-old Max’s scores on the CBCLs completed by his parents, TRF completed by his teacher, and YSR completed by Max. You can also see that the ABCL completed by Max’s mom yielded an Attention Problems score in the clinical range for his dad. His dad’s ASR yielded a score in the borderline clinical range. The ABCL and ASR scores thus revealed that Max’s dad—like Max—may need help for attention problems.

Scores above the top broken line are in the clinical range for the CBCLs and TRF for Max, plus the ABCL for his dad. Scores between the broken lines are in the borderline range for Max’s YSR and his dad’s ASR.

The **Guide to Family Assessment** provides instructions for using the MFAM to assess children and parents. The **Guide** also provides case illustrations of how to present MFAM graphs to parents, if deemed appropriate by users. Showing MFAM graphs to parents can help them see areas in which they, as well as their child, may need help.

### ASEBA Support on YouTube

The ASEBA Support YouTube Channel presents brief how-to videos for using ASEBA forms and software. These videos (http://howtovideos.aseba.org) are available on YouTube via all internet-connected devices and also within ASEBA software.

- Setting up, installing software, logging in
- Administering and scoring forms
- Displaying scored profiles
- Advanced user and administrative tasks
- Importing and exporting records

Facilitating Evidence-Based Practice
ASEBA-PC

For additional information, visit www.aseba.org/aseba-pc/

For technical information visit https://answers.aseba.org/or e-mail us at techsupp@aseba.org

ASEBA-PC software makes it easy to manage intake, progress, and outcome data obtained with ASEBA forms. Multicultural modules are available for preschool forms (CBCL/1½-5-LDS, C-TRF/1½-5), school-age forms (CBCL/6-18, TRF/6-18, YSR/11-18, BPM/6-18), adult forms (ABCL/18-59, ASR/18-59, BPM/18-59), and older adult forms (OABCL/60-90+, OASR/60-90+).

The MFAM enables you to enter, score, and compare data from the CBCL/6-18, TRF, YSR, ASR, and ABCL, with multicultural options.

● ASEBA-PC creates easy-to-read intake, progress, and outcome profiles of normed scale scores and narrative reports exportable to screen, printer, TIFF, and PDF files, including A4 and U.S. paper sizes.

● Profiles include competence, adaptive functioning, syndromes, DSM-oriented scales, Internalizing, Externalizing, Total Problems, and Other Problems.

● Item ratings are displayed with each profile, enabling you to quickly see both the profile pattern and the specific item ratings.

● ASEBA-PC has multicultural options for all ages and the MFAM.

● Narrative reports display ratings for critical items that are of particular clinical concern.

● Modules display cross-informant comparisons of data from up to 10 forms, including item ratings, correlations between informants, and bar graphs of scale scores. (BPM displays cross-informant comparisons of 4 forms.)

● Data entered via ASEBA-Web (p.16) can be downloaded for unlimited scoring via ASEBA-PC.

● Export data for statistical analyses and other purposes.

Replacement of Lost CDs
A lost CD requires the purchase of a new ASEBA-PC product.

For the ASEBA-Web Application that enables online form completion by informants, see p. 16

ASEBA-PC is easy to implement in a HIPAA-compliant environment with strong user-authentication

System Requirements
Windows® 8 or 10; 1GB of available RAM, 2GB of available disk space, and 2 cores. ASEBA-PC is not compatible with Apple workstations unless it is run with virtualization software that contains Windows.

ASEBA-Network software makes it easy to manage and score ASEBA forms from multiple workstations connected to a single database hosted by the customer on their internal network. ASEBA-Network provides a secure connection to an encrypted database. It is configured to run on a single server, or on separate servers for web and database components. Scoring modules are available for ASEBA preschool, school-age, BPM/6-18, adult, BPM/18-59, and older adult forms, and MFAM.

**Minimum System Requirements**
Windows® Server 2012 R2 with IIS 7.5+, SQL Server 2012 or newer or SQL CE, ASP.NET 4.7.2, 2 cores, 1GB of RAM, and 2GB of disk space.

ASEBA-Web

For additional information, see www.aseba.org/aseba-web/

For FAQs and “how-to” videos, visit https://answers.aseba.org/

ASEBA-Web’s advanced technology is easy to use for intake, progress, and outcome assessments. It includes web-based entry, scoring, cross-informant comparisons, and storage of data. ASEBA-Web enables online administration of ASEBA assessment forms for ages 1½-5, 6-18, 18-59, and 60-90+. This is a subscription service that is renewable on an annual basis. Our system has been designed and implemented to meet the requirements of the Health Insurance Portability and Accountability Act (HIPAA).

ASEBA-Web Enables You To:

● NEW! Enable multi-factor authentication to improve user-identity security (U.S.)
● Use a variety of optimized screen sizes (i.e., most tablet and phone devices)
● Administer ASEBA intake, progress, and outcome forms to clients and informants online
● Score data on ASEBA scales in relation to multicultural norms for all ages
● Obtain cross-informant comparisons for all ages, plus MFAM cross-informant comparisons of scores from the CBCL/6-18, TRF, YSR, ASR, and ABCL
● Use your e-units for as long as your ASEBA-Web subscription is in effect
● Easily export raw and scored data from ASEBA-Web to SPSS® and MSExcel®
● Easily export reports as TIFFs or PDFs
● Easily export data from ASEBA-Web to ASEBA-PC or ASEBA-Network, and vice versa
● Print paper forms for manual completion by informants
● Key enter data obtained from paper forms
● Use all major web browsers (Internet Explorer, Chrome, Firefox, and Safari)
● Launch informant app for onsite completion of form(s) by assessed individual/informant
● Securely store your data in the Cloud supported by the latest data encryption standards
● Require change of password at first login to an informant website
● Use directory/folder capabilities to classify assessed persons according to your organizational structure on the administration website. Example: Use separate directories/folders for each clinician with their assessed clients and informants
● Open multiple screens/tabs for different tasks
● Easily merge duplicate records for assessed client
● Search by informant or assessed client
● Use table/grid views for quick access to various information such as viewing status of forms by informant or by assessed client
● Use auditing tools: Logs for user login/logout and user management activities; transaction logs by user (for create, delete, read, and update activities) within a date range
● View available e-units at any time
● Automatically provide personal home page for each informant with access to all his/her forms

An e-unit is charged for each of the following:
● Creating a form either for online completion by an informant or client, or for key-entry
● Printing a paper form for manual completion by an informant or client
● Scoring a form to produce profiles and a narrative report

**SCICA** Semistructured Clinical Interview for Children & Adolescents

For additional SCICA information, visit [www.aseba.org/school-age-scica/](http://www.aseba.org/school-age-scica/)

The SCICA maximizes the value of interviews with a flexible user-friendly protocol, plus forms on which interviewers rate their observations and children’s self-reports during the interview.

- The SCICA Protocol provides open-ended questions covering children’s activities and school performance, peer relations, family relations, self-perceptions, feelings, and parent/teacher-reported problems
- Interviewers rate the child on the SCICA Observation and Self-Report Forms
- Scored on eight empirically based syndromes and six DSM-oriented scales, Internalizing, Externalizing, and Total Problems
- **Syndrome Scales:** Anxious; Withdrawn/Depressed; Language/Motor Problems; Attention Problems; Self-Control Problems; Anxious/Depressed; Aggressive/Rule-Breaking; and Somatic Complaints
- Normed on 686 clinically referred children, with separate profiles for ages 6-11 and 12-18

**Test Observation Form (TOF)**

Ages 2-18

For additional TOF information, visit [www.aseba.org/observational-assessments/](http://www.aseba.org/observational-assessments/)

Ability and achievement tests pose significant challenges for children. The TOF enhances the value of test scores by documenting test examiners’ observations of children’s behavior during testing.

- The examiner briefly notes the child’s behavior during testing. The examiner then rates the child on 125 problem items
- Norms are based on ethnically diverse samples of 3,943 children, with separate norms for boys and girls ages 2-5, 6-11, and 12-18
- **Empirically based scales:** Withdrawn/Depressed; Language/Thought Problems; Anxious; Oppositional; Attention Problems; Internalizing; Externalizing; and Total Problems
- **DSM-oriented scales:** Attention Deficit/Hyperactivity Problems scale with Inattention and Hyperactivity-Impulsivity subscales

### SCICA Manual for the Semistructured Clinical Interview for Children & Adolescents

Second Edition

Stephanie W. McConaughy & Thomas W. Achenbach

164 pp. (805E)
The Achenbach System of Empirically Based Assessment (ASEBA): Development, Findings, Theory, and Applications

By T.M. Achenbach, Professor of Psychiatry and Psychological Science
University of Vermont

Illuminates and integrates decades of work related to the ASEBA. The book traces major milestones in the ASEBA’s conceptual, methodological, and theoretical development. It also elucidates applications to assessment, training, and research. Key topics include:

● Empirically based approach
● Quantitative aspects of assessment and taxonomy
● Developmental psychopathology
● Linking assessment and taxonomy
● From classification to quantification
● Accelerated longitudinal research
● Modeling phenotypic and genotypic interplays
● From cross-cultural to multicultural research
● Evidence-based assessment (EBA) for evidence-based treatment (EBT)
● From data to theory and back to data

Guides

Specialized Guides are available for medical, school-based, child/family service, and mental health practitioners, family and multicultural assessment, DSM-oriented scales, and ages 18-90+. Guides include: explanations of instruments and procedures for use in particular contexts; illustrations of profiles; cross-informant comparisons; case examples; data-processing options; and annotated bibliography. The Guides are to be used in conjunction with the Manuals, which provide detailed documentation for each form.

Bibliography

of Published Studies Using the ASEBA

Access the Bibliography online to search references for over 10,000 publications that report use of the ASEBA in over 100 societies and cultural groups, starting in 1966. Appearing in over 800 professional journals and books, the publications are by more than 17,000 authors.

Continually updated, the references can be accessed by authors’ names and by over 600 keywords such as Abuse, Addiction, ADHD, Adult assessment, African American, Anxiety, Genetic factors, HIV-AIDs, PTSD, and Outcomes, as well as by hundreds of medical topics and names of many cultural groups, societies, and languages.

Single keywords and combinations of keywords can be entered to obtain listings of references for viewing and printing.
### Preschool

- **621** Computer-Scoring Starter Kit for Ages 1½-5 (ASEBA-PC Module w/Multicultural Options, 50 CBCL/1½-5-LDS, 50 C-TRF, Manual, and Multicultural Supplement)**$45**

- **609** Ages 1½-5 Hand-Scoring Starter Kit (50 CBCL/1½-5-LDS, C-TRF, Profiles, Templates, and Manual)**$40**

- **620** ASEBA-PC Module w/Multicultural Options for Ages 1½-5 (620E)

- **630** ASEBA-Network w/Multicultural Options for Ages 1½-5 (630E)

- **605** Preschool Manual 178 pp. (605E)

- **615** Multicultural Supplement to the Preschool Manual 135 pp. (615E)

- **625 Special Offer: Preschool Manual plus Multicultural Supplement**

- **600 Latino Spanish** Child Behavior Checklist/1½-5-LDS (50/pkg) (scored with English profiles and software)

- **601** Child Behavior Checklist/1½-5-LDS (50/pkg)

- **602 CBCL/1½-5 Hand-Scoring Profiles (50/pkg)**

- **603 LDS Hand-Scoring Norm Sheets (50/pkg)**

- **604 CBCL/1½-5 Reusable Hand-Scoring Templates**

- **901 Caregiver-Teacher Report Form (50/pkg)**

- **902 C-TRF Hand-Scoring Profiles (50/pkg)**

8:00 am - 4:30 pm EST
mail@aseba.org

ASEBA
1 South Prospect Street
Burlington, VT 05401
Federal ID: 03-0368227
Dun & Bradstreet: 004726365

Placing Orders

Place Orders
Order online at store.aseba.org and pay by credit card (Visa or MasterCard). We do not accept credit cards by mail or phone.

Submit Order Form with Purchase Order (US orders only, net 30 days required) to mail@aseba.org. Or mail Order Form with check or money order payable in US dollars to ASEBA.

Customers will be charged a correction fee if the delivery address changes after a package leaves our premises for delivery to the original address. If a change notice is received from the carrier, the credit card will automatically be charged. Other payment methods will be billed for the additional charges.

Authorized Distributors
Customers outside the US may order products on pp. 20-21 directly from ASEBA at US prices plus applicable tax and shipping. Free electronic shipping for everything except packages of forms. Please check www.aseba.org/distributors/ regarding authorized distributors for Australia, Belgium, Brazil, Bulgaria, Canada, China, Colombia, Croatia, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, India, Ireland, Israel, Italy, Jamaica, Japan, Kenya, Kosovo, Latvia, Lithuania, Mexico, New Zealand, Norway, Poland, Portugal, Romania, Russia, Serbia, Singapore, Slovenia, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, Thailand, The Netherlands, Turkey, United Kingdom, US, Vietnam, and elsewhere.

Terms
Online orders must be guaranteed by Visa or MasterCard. Order Forms must be accompanied by check or money order, or guaranteed by Purchase Order (US only, net 30 days required). Prices are valid until 12/31/21.

Exchanges
Check your order when it arrives. If we made an error, goods are defective, or you need to exchange an item, contact us within 30 days for a replacement. Exchanges due to customer errors will incur shipping charges.

Call 802-656-5130 for a return merchandise authorization (RMA) #.

Discounts
Contact us regarding volume discounts. For discounts on products to be used for courses, training programs, and student research projects, complete a discount application on our website at: aseba.org/for-students-academic-training-programs.

Shipping Information
Free electronic transmission for everything except packages of forms! Manuals, books, guides, and software can be transmitted electronically without shipping costs. (Please note that files are available for download for 3 weeks after you receive e-mail notification.)

Ground delivery to the 48 contiguous US states is $14 per order. For addresses outside the 48 contiguous US states, please contact us for shipping options and costs.

Next Day and 2nd Day Delivery
Call 802-656-5130 for cost of expedited delivery. Orders must be received by noon ET to be shipped the same day for delivery 1 or 2 business days later.

Licenses
Apply for a license to reproduce ASEBA forms and to create scoring that replicates ASEBA scoring at aseba.org/site-and-scoring-licenses/. Apply for a license to translate forms for languages not listed at www.aseba.org/translations/.

Customized Training
ASEBA can provide onsite or online training for groups. Complete form on page 11 or at www.aseba.org/aseba-training-request/.

- □ Purchase Order (US Only) - Attach PO, net 30 days
- □ Check Enclosed payable to ASEBA in US dollars

**Paying via Credit Card?**
Please order via our online store at store.aseba.org. Our secure online store accepts Visa and MasterCard.

*Tax-exempt purchasers: provide state sales tax exemption form (MI/MN/NC/OH/PA/VT)

### User Qualifications
- Please complete for first-time orders of forms and ASEBA-Web accounts.

The use and interpretation of ASEBA forms require graduate training in standardized assessment procedures of at least the Master’s degree level or equivalent, plus thorough knowledge of the relevant manuals and documentation. Administration of the SCICA additionally requires supervised experience in interviewing children. Eligibility to purchase ASEBA forms is based on academic degree, licensing, and acceptance of conditions 1-5. The user and supervisor named below agree to adhere to the following conditions:

1. I will maintain the confidentiality of all assessment results.
2. I will avoid labeling individuals solely on the basis of scale scores.
3. I will strictly abide by copyright laws and will not reproduce or alter copyrighted materials.
4. I will employ and score assessment procedures precisely according to instructions.
5. I will release results only to authorized persons in conformity with professional standards for psychological assessment.

User’s signature indicates compliance with the above conditions: Signature ______________________________________________

Print full name ____________________________________________ E-mail __________________________ Date ________

If you are a trainee or lack the equivalent of a Master’s degree or appropriate license/certificate, have your supervisor complete the following:

Supervisor’s signature __________________________ Print supervisor’s full name __________________________

### Registration of Qualifications
- Check whether qualifications are for □ User or □ Supervisor
